### Alufoil Trophy China 2022 awards made at Aluminium China – South China exhibition

The Alufoil Trophy China 2022 awards ceremony took place during the Aluminium China-South China, at the International Convention & Exhibition Center, Tanzhou, Guangdong. Presentation of the Trophies to the winning enterprises were made by Fan Shunke, president, and Zhang Jilin, vice president and secretary general of the China Nonferrous Metal Fabrication Industry Association (CNFA). Dong Chunming, China coordinator of GLAFRI, presided over the award ceremony and announced the winners.

Alufoil Trophy China, an industry initiative which is jointly sponsored by CNFA and GLAFRI, continues to receive strong support from Reed Exhibition China who organize the exhibition. The 2022 event marks the 6<sup>th</sup> year the competition has taken place.

Zhang Jilin stated that Alufoil Trophy China event promotes the excellent characteristics of aluminum foil, showcases the innovation of the industry and drives green consumption. The competition is a good way to enhance and encourage high-quality development in China's aluminum foil industry. Making its debuting in 2017, the Award has met with a positive response and receives wide attention from both inside and outside the industry.

With more participants and diversified entries each year, Alufoil Trophy China reflects the development of the industry very prominently. Mr Zhang hoped that all award winners would continue to strengthen innovation, strive to widen the applications of the product and further enhance the influence and role of aluminum foil Innovation. Working on the theme that 'less is more' and with new contributions to social responsibility and national development, the sector and its customers can jointly create a bright future for aluminum foil industry.

The Alufoil Trophy China 2022 continues to receive positive support from both aluminium foil producers and downstream users, explained Dong Chunming. More than 30 enterprises submit nearly 40 entries. The jury, following the criteria of technological innovation, product application, market orientation, industry cooperation and sustainable development, selected 22 winners.

They made awards in 5 categories, spanning 21 companies from across the entire sector.

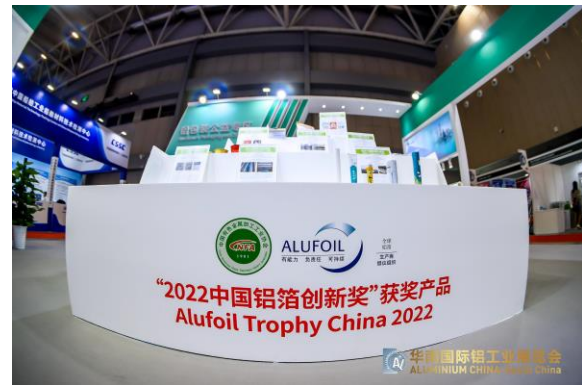

As COVID-19 lingers on aluminum foil manufacturers continue to encounter many challenges. It is gratifying that the pace of innovation and development has never slackened. As in 2021, Alufoil Trophy China 2022 showed innovative progress in aluminum foil production, application, marketing and service.

Award-winning entries included high-end aluminum foil manufacturing and in-depth applications which include lithium batteries, sterile packaging, household, containers, architectural decoration, as well as food and pharmaceutical packaging.

Clear and exciting cases of industrial transformation and improvement epitomize the progress of the industry. They reflect the industry’s trend to focus on sustainable development and demonstrate the special value, social awareness, environmental contribution and corporate social responsibility of aluminum foil and the companies involved in its manufacture and conversion.

The year 2022 marks the 90th anniversary of the foundation of China's aluminum foil industry. Alufoil Trophy China 2022, in this context, also offers some commemorative significance. Not only is it a recognition of aluminum foil innovation in the past year, but also a tribute to the previous generations, which have been built upon to create the healthy and vigorous sector we see today. Recent statistics reveal domestic aluminum foil consumption ramped up from 2.55 million tons in 2017 to 2.993 million tons in 2021.
